central northern areas

Op die kleinhoewe Grace, net buite Outjo, staan 2 200 granaatbome wat vrugte vir die 100% organiese produkte van Ruby Grace lewer.

Granate: Vars sap en vrugte uit Outjo

Tanja Bause

Sowat tien jaar gelede het Outjo se Chrisman Stander en sy vrou, Trudie, besluit om bome op hulle kleinhoewe te

plant. Aanvanklik het hulle suurlemoenbome oorweeg. "Ek het op 'n dag vir Trudie gesê dat ons moet neerskryf watter bome elkeen van ons

graag sou wou plant. Snaaks genoeg wou ons albei granaatbome hê. So gesê, so gedaan," vertel Chrisman. Hulle het die "Wonderful"-

granaatvariëteit vanuit Suid-Afrika gekoop, ingevoer en geplant. Na sy besending van

2 200 bome op die plot aangekom het, het Chrisman begin gate grawe en waterpype aangelê.

“Ek en my vrou het elke boom self geplant. Ons kon elke dag sowat 60 plant. En drie jaar later het ons ons eerste vrugte geoes.”

’n Deel van die eerste oes is as heel vrugte verkoop terwyl die res versap is.

Chrisman verkoop granaatsap, uitgedopte pêrels in bakkies en die heel vrug onder die naam Ruby Grace.

“Die plot se naam is Grace en die pêrels lyk soos robyne - dus die naam Ruby Grace.”

“Ons het besef Namibiërs hou nie daarvan om self die vrugte te skil en die pêrels uit te haal nie. So aan die begin het ek en Trudie in die aande, wanneer ons by die huis aangekom het, gesit en die pêrels uitgedop.”

“Ons doen dit nog steeds met die hand, maar nou het Trudie ’n span wat haar met die werk help. Ek het ook ’n versappings masjien aangeskaf, wat die sap maak.”

’n Geoesde granaat word nie verder ryp nie en kan vir meer as drie maande gebêre word. As dit in die yskas is, kan dit tot nege maande behoue bly.

“Die skil krimp en raak verrim-

peld, maar die pêrels binne is kraakvars soos die dag toe dit geoes is,” sê Chrisman.

Organies

Twee jaar gelede het Chrisman besluit om oor te skakel na 100% organiese boerdery.

“Dit is glad nie maklik nie en ek het al baie gedink om weer terug na chemikalieë toe te gaan, maar ek sal nie.

“Ek wil die verbruiker ’n gesonde, organiese produk bied, sonder enige chemiese toevoegings. Wanneer jy ’n Ruby Grace produk koop, weet jy wat jy kry. Dit is soos dit van die ’ma afkom’ geen chemikalieë en geen gif is gebruik nie.”

Volgens hom is ’n organiese boerdery ’n leerproses omdat jy moet raai hoeveel hoender of beesmis jy moet gebruik om ’n optimale oes te kry.

“Wanneer jy ’n sak chemiese kunsmis koop, weet jy presies hoeveel en wat daar binne is asook hoeveel jy moet gebruik. So ek leer elke jaar en elke jaar word die oes beter en groter. Ek kan met trots sê dat my produkte nie net 100% Namibies is nie, maar ook 100% organies en gesond.”

Die produkte kan direk by Chrisman gekoop word of by die Spar op Outjo, Windhoek en Swakopmund.

Crockango Bonanza

Southern Africa's Premier Fishing Competition

The Crockango Bonanza, held from 29 April to 2 May, is one of the biggest and most exciting fishing competitions in Southern Africa, drawing anglers from all corners of the region.

With entries for the Crockango Bonanza closing on Monday, 14 April 2025, teams have to hurry to secure their spot and get a chance to win their share of a staggering prize pool of up to N\$1 million!

The Crockango Bonanza, held from 29 April to 2 May 2025, is one of the biggest and most exciting fishing competitions in Southern Africa, drawing anglers from all corners of the region.

It is held annually on Namibia's

breathtaking Okavango River, celebrating the spirit of adventure, community and the rich natural beauty of the area.

Teams

The Crockango Bonanza is a fiercely contested competition, with 50 teams participating in the quest for glory and prizes.

These teams, made up of skilled anglers from all over Southern Africa, will partake in the competition. It features various categories and challenges,

ensuring that every team, from the seasoned professional to the passionate amateur, has a chance to shine.

As the event progresses, anglers will need to utilize their best techniques, patience, and local knowledge of the Okavango River to reel in the biggest catches.

Every successful catch brings them closer to the prizes, making the stakes high and the competition fierce.

While the Crockango Bonanza

is centered around fishing, it's much more than just a contest for anglers. The event is designed to offer something for everyone, with plenty of entertainment for families and children.

A dedicated kids' entertainment area will ensure that the younger generation is entertained throughout the competition, whether they're enjoying interactive games, learning about the environment, or simply having fun in a safe,

Van bL 3

family-friendly atmosphere. Additionally, the event will feature a lively bar with music, creating a vibrant and social atmosphere for attendees. With local music playing in the background, it's the perfect place to relax.

Celebration

The Crockango Bonanza is also a celebration of Namibia's natural heritage and a strong sense of community among anglers, families, and spectators. The event highlights the preserving of the region's rivers, wildlife, and ecosystems while promoting social engagement and friendly competition.

As the teams battle for the top spots and the generous prize pool, the event serves as a reminder of the incredible natural beauty and resources that Namibia has to offer. Whether you're an avid angler, a family looking for a fun weekend, or someone who appreciates great music and lively atmospheres, the Crockango Bonanza promises an unforgettable experience

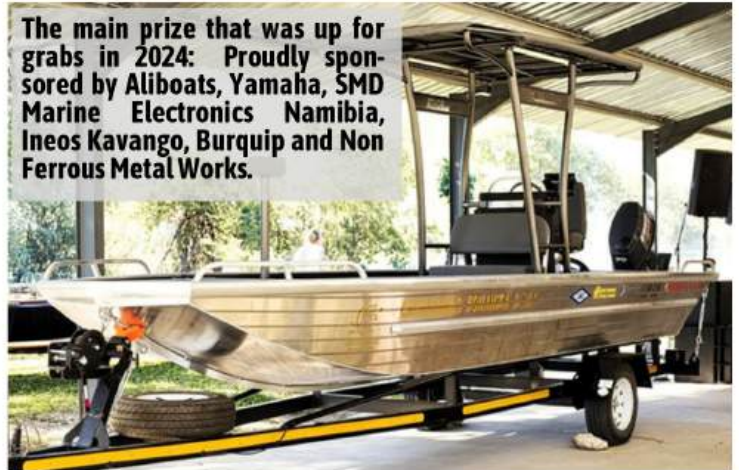

Fishing enthusiasts

The Crockango Bonanza is undoubtedly one of Southern Africa's most anticipated events for fishing enthusiasts and the general public alike. Mark your calendars, pack your gear, and get ready for an unforgettable adventure!

Woman breaking ground in the Waterproofing Industry

Our story started during the Covid 19 epidemic, Natasha was working in tourism and due to the pandemic had no other choice than to investigate different avenues and industries for an income. She was approached by a friend who wanted to start a company as distributor for South African Waterproofing products. Natasha worked her way up meeting with contractors and very soon became known for her Waterproofing expertise and the unique products she was importing into Namibia. During 2020 – 2023 she was working as part of the distributor company, but in June 2023 she together with her trusted friend, Chantelle Scholtz started the first and only branch for Coating Industries SA in Namibia, known as Coating Industries Namibia. They both worked from Natasha's home in Otjiwarongo and supplying clients and contractors with products countrywide. Soon it became clear that they needed to open a shop for clients and contractors to visit and where they can offer product samples and show off projects completed with the Coating Industries products.

On 1st March 2024 they opened Coating Industries Namibia's shop in Otjiwarongo, the Old Dulux shop and soon people started walking through the door looking for products they could not find in the mainstream hardware retailers.

Coating Industries have grown from two ladies to having a dedicated sales department as well as boasting their own in-house coating specialist.

Luis Talaya previously worked for Dulux and joined the Coating ladies as a very qualified paint salesman, that has the drive and passion to not only sell a product but a service.

Jors Scholtz joined the team in October last year as a coating specialist, providing a service to all Coating Industries clients who need the services of a skilled and approved applicator. He offers a coating service for Roofs, Floors & Pools. He is not a builder, so clients must ensure surfaces needing coating are ready and meet sub-base requirements beforehand. Our in-house contractor operates under the umbrella of OJE Coatings Specialist, simply because, OJE Maintenance & Coatings forms an integral part of this business. The owner of OJE Maintenance & Coatings is Ockert van der Watt, husband to Natasha van der Walt, owner of Coating Industries Namibia. We are not only a working team, but a great family and together we are able to offer a combination of services to our customers.

Coating Industries Namibia is a subsidiary of Coating Industries SA, which manufactures all the products supplied to Namibian customers by Coating Industries Namibia.

The products we supply and specialize in range from Roof Leaking products to Pool coating products, concrete repair mortars, screeds and much more.

We would like to take this opportunity to invite you to visit our store on 1 Germania Street Otjiwarongo or contact us on 0816706353, when you need products to seal your roof, paint a domestic or industrial floor or looking to spruce up your pool before summer.

RubberCote 414 is the top seller when it comes to fixing and sealing a leaking roof and can last longer than 10 years when applied correctly

FloorCote 809 is the best choice when you are looking for a high traffic flexible floor or wall paint, durable, hardwearing and easy maintainable

PoolCote 200 should be your only choice when looking to paint your pool. A specialized single-pack coating with excellent flexibility, water, and chemical resistance to common pool cleaning, reducing algae and fungal growth. It is a single pack, low build, Pool Cote Thinners based coating, providing a hardwearing and chemical-resistant finish.

For us as a team it is important to educate our customers on our quality products, how to use it and to always be able to assist with technical issues where possible.

We are all based in Otjiwarongo and have set up our own distribution channel through our trusted courier companies in order to supply our products wherever you might need it at a fraction of the normal courier costs.

We look forward to welcome you to our store for a Coating Experience offered to you by Proud Namibians who understands the aches and pains of Waterproofing.
